

Nothing Out of Something

I once was fire
But now I'm just a pile of burning embers
I sang for the choir
But now, I'm just a silent member
If I only knew then
What I know today
I'd have made it through life
In a spectacular way. But here I sit without a
Clue wondering what to do my life's in disarray

I made nothing out of something and snatched
Defeat from the jaws of victory
I made nothing out of something
And something's made a nothing out of me

Not so long ago
I was sitting pretty on top of it all
I was in control
I was on a roll my eyes were on the ball
But then it all slipped away
Like a thief in the night
Hiding in the shadows
Shrouded out of sight
Never to be seen was it just a dream lost in the night

I made nothing out of something
I thought it all was guaranteed
I made nothing out of something
And something's made a nothing out of me

I walk the streets like a ghost
Shopping cart full of clothes
Broken lamp on the post
No one sees, no one knows

All the pain
I'm feeling inside
The tears that the rain
Just can't hide
My misery's cascaded all my hope has faded I'm broken inside

I made nothing out of something
I chose to flee and not to fight
I made nothing out of something
Something so right
