

Eggs Over Easy
Lyrics and Music by Ben Hassenger

I like my eggs over easy
Yours are sunny side up
I eat my hamburgers greasy
You dig healthier grub
We're no birds of a feather
But we're flocking together
I like my eggs over easy

I go to bed early
You're up all night
You burn like fire
I'm as chill as ice
We're in different clubs
But party in the same pub
I like my eggs over easy

Beer and chaser
Pencil and eraser
We're as unlike as we could be
North and south
Sugar and salt
Serious, carefree
Fork and spoon
Sun and moon
Cabernet or chablis
But like oil and vinegar
Sinner and minister
Without each other where would we be?

I'm a person of few words
You like to chat
I prefer dogs
You're one for cats
We don't mind mixing
Fact and fiction
I like my eggs over easy, hamburgers greasy, come over and squeeze me
